JL.Metland Ujung Menteng Teresta 7

PROFILE

Student at Tarumanagara University with a passion for business analysis. The academic journey has provided a strong foundation in both business analysis and technical skills. Gained practical experience using programming languages such as HTML, CSS, Flutter, and Python for data analysis and solving business problems. The ability to blend analytical thinking with technical expertise makes for a strong fit as a Business Analyst Intern. Dedicated, detail-oriented, and eager to contribute to organizational growth through data-driven insights and innovative solutions.

EDUCATION

Tarumanagara University

5th semester and active at several organization.

Jakarta

(Information System undergraduate with latest GPA 3.33)

PROJECT EXPERIENCE

Aug 2024 — Sept 2024

Mobile Application for Student Attendance

- Designed an intuitive user interface for a student attendance application using Figma and implemented the front-end with Dart in Flutter.
- Integrated the front-end with the back-end system in real-time to display student attendance data responsively.
- Enhanced user experience with a user-friendly design, tested by over 50 initial users with positive feedback.

Feb 2024 — Apr 2024

App Development and Quality Assurance Project

- Conducted end-to-end business analysis, from requirements gathering to designing mobile business processes for a delivery application.
- Created a comprehensive list of business requirements and wireframes for key features, ensuring alignment with business needs.
- Configured application features to optimize user experience and streamline the delivery process.
- Executed manual testing with well-defined test cases, identifying and reporting critical bugs in delivery and tracking features.
- Delivered detailed test reports and recommendations, leading to enhanced feature reliability and improved application performance.

Sept 2023 — Oct 2023

Personal Portfolio Website

- Developed a personal portfolio website using HTML, CSS, and JavaScript, showcasing technical skills and completed projects.
- Deployed the website publicly using Vercel, ensuring seamless access and optimal performance across browsers.
- The portfolio is accessible via the following link on Chrome: portfolio-fedriko-artya.vercel.app.

CERTIFICATION

- Power BI for HR: Visualize HR Data Using Power BI — Udemy, On Progress
Learning how to use Power BI for data visualization.
- Business Process Automation — Udemy, Issued Oct 2024
Learned about automating business processes to increase efficiency and streamline operations.
- English Course Certificate — WallStreet English, Issued Oct 2023
Gained proficiency in general conversation and communication skills.
